

小鼠抗 MAK 单克隆抗体

中文名称: 小鼠抗 MAK 单克隆抗体

英文名称: Anti-MAK mouse monoclonal antibody

别名: male germ cell associated kinase; RP62

相关类别: 一抗

储存: 冷冻 (-20℃)

宿主: Mouse

抗原: MAK

反应种属: Human

标记物: Unconjugate

克隆类型: mouse monoclonal

技术规格

Background:	The product of this gene is a serine/threonine protein kinase related to kinases involved in cell cycle regulation. Studies of the mouse and rat homologs have localized the kinase to the chromosomes during meiosis in spermatogenesis, specifically to the synaptonemal complex that exists while homologous chromosomes are paired. Mutations in this gene have been associated with ciliary defects resulting in retinitis pigmentosa 62. Alternative splicing results in multiple transcript variants.
Applications:	WB, IHC
Name of antibody:	MAK
Immunogen:	Fusion protein of human MAK
Full name:	male germ cell associated kinase
Synonyms:	RP62

SwissProt:	P20794
IHC positive control:	Human thyroid cancer and Human prostate cancer
IHC Recommend dilution:	50-150
WB Predicted band size:	71 KD
WB Positive control:	HepG2 cell lysate
WB Recommended dilution:	200-1000
