

兔抗 DYSF 多克隆抗体

中文名称：兔抗 DYSF 多克隆抗体

英文名称： Anti-DYSF rabbit polyclonal antibody

别名： MMD1; FER1L1; LGMD2B

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： DYSF

反应种属： Human, Mouse

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The protein encoded by this gene belongs to the ferlin family and is a skeletal muscle protein found associated with the sarcolemma. It is involved in muscle contraction and contains C2 domains that play a role in calcium-mediated membrane fusion events, suggesting that it may be involved in membrane regeneration and repair. In addition, the protein encoded by this gene binds caveolin-3, a skeletal muscle membrane protein which is important in the formation of caveolae. Specific mutations in this gene have been shown to cause autosomal recessive limb girdle muscular dystrophy type 2B (LGMD2B) as well as Miyoshi myopathy. Alternative splicing result

	s in multiple transcript variants.
Applications:	ELISA, IHC
Name of antibody:	DYSF
Immunogen:	Synthetic peptide of human DYSF
Full name:	dysferlin
Synonyms :	MMD1; FER1L1; LGMD2B
SwissProt:	O75923
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human brain
IHC Recommend dilution:	25-100
