

兔抗 F8 多克隆抗体

中文名称：兔抗 F8 多克隆抗体

英文名称：Anti-F8 rabbit polyclonal antibody

相关类别：一抗

储 存：冷冻（-20℃）避光

宿 主：Rabbit

抗 原：F8

反应种属：Human, Mouse, Rat, Dog, Rabbit,

标 记 物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Human homolog is a cofactor for factor IXa; it involved in blood coagulation. Factor VIII, along with calcium and phospholipid, acts as a cofactor for factor IXa when it converts factor X to the activated form, factor Xa. Interacts with VWF. VWF binding is essential for the stabilization of F8 in circulation. Secreted protein; extracellular space. Domain F5/8 type C 2 is responsible for phospholipid-binding and essential for factor VIII activity. Defects in F8 are the cause of hemophilia A (HEMA). Belongs to the multicopper oxidase family.
Applications:	IHC, IF
Name of antibody:	F8
Immunogen:	KLH conjugated synthetic peptide derived from rat factor VIII

Full name:	coagulation factor VIII, procoagulant component
SwissProt:	P00451
ELISA Recommended dilution:	500-1000
IF Recommended dilution:	100-500
