

兔抗 PRAME 多克隆抗体

中文名称： 兔抗 PRAME 多克隆抗体

英文名称： Anti-PRAME rabbit polyclonal antibody

别 名： MAPE; OIP4; CT130; OIP-4

抗 原： PRAME

储 存： 冷冻 (-20°C)

宿 主： Rabbit

相关类别： 一抗

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:	This gene encodes an antigen that is preferentially expressed in human melanomas and that is recognized by cytolytic T lymphocytes. It is not expressed in normal tissues, except testis. The encoded protein acts as a repressor of retinoic acid receptor, and likely confers a growth advantage to cancer cells via this function. Alternative splicing results in multiple transcript variants.
Applications:	ELISA, IHC
Name of antibody:	PRAME
Immunogen:	Fusion protein of human PRAME
Full name:	preferentially expressed antigen in melanoma
Synonyms:	MAPE; OIP4; CT130; OIP-4
SwissProt:	P78395
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human colorectal cancer and human tonsil

IHC Recommend dilution: 25-100
