

## 兔抗 SYNM 多克隆抗体

中文名称：兔抗 SYNM 多克隆抗体

英文名称： Anti-SYNM rabbit polyclonal antibody

别名： DMN; SYN

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： SYNM

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

### 技术规格

<b>Background:</b>	The protein encoded by this gene is an intermediate filament (IF) family member. IF proteins are cytoskeletal proteins that confer resistance to mechanical stress and are encoded by a dispersed multigene family. This protein has been found to form a linkage between desmin, which is a subunit of the IF network, and the extracellular matrix, and provides an important structural support in muscle. Two alternatively spliced variants encoding different isoforms have been described for this gene.
<b>Applications:</b>	ELISA, IHC

<b>Name of antibody:</b>	SYNM
<b>Immunogen:</b>	Synthetic peptide corresponding to a region derived from 1516-1528 amino acids of human SYNM
<b>Full name:</b>	synemin
<b>Synonyms:</b>	DMN; SYN
<b>SwissProt:</b>	O15061
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC Positive control:</b>	Human liver cancer;
<b>IHC Recommended dilution:</b>	20-100
